Welcome To Streatfield Dental Surgery

Practice Ethos

You tell us what type of dentistry you would like to receive. We will listen to your needs and concerns.

We will discuss all reasonable options with you and where the evidence exists we will always offer you the best option first.

We will discuss pros and cons honestly with you to ensure that you can give us informed consent for your dental treatment.

We will ensure that you are treated by the dentist best suited to carry out the procedure and will recommend referral to more specialised dentists, as deemed necessary.

We will provide that treatment in a relaxed comfortable stress free environment and we will continually update our knowledge to ensure you receive the best treatment possible.

We will ensure our staff are well trained and treat you with due respect. We expect the same respect in return.

We have in place a quality control, clinical governance program and have CQC registration to ensure maintenance of both clinical and administrative standards.

We want to help patients and make them SMILE!!
